

Rivian R1S

Explore the places you love with the people you love. It's time to make some memories.

Capability

Drive through 3+ feet of water. Rock crawl a 100% grade. Traverse just about any terrain with 14.9 inches of ground clearance. Tow up to 7,700 lbs. With a 0–60 mph time as quick as 3 seconds, it also delivers the on-road handling of a sports car.¹

A completely connected vehicle.

The R1S is designed to be a fully connected experience, with in-vehicle software and app working together to help you get where you're going safely and comfortably.

Easy charging along the way.

When you're out and about, 20 minutes at a fast charger can add enough range to drive about 140 miles. Every Rivian vehicle features a CCS plug so you can charge with any public charging network, as well as our ever-growing Rivian Adventure Network.

Experience

From city streets to far-off trails, explore all types of terrain through all kinds of weather. Whatever adventure means to you, R1S is ready for it.

Specs

The R1S is available with three AWD drive systems: Dual-Motor, Performance Dual-Motor and Quad-Motor. All three deliver exceptional performance, both on-road and off. Based on the drive system and battery pack you choose, you'll get an estimated 260–390 miles of range.¹

Dual-Motor AWD		Performance Dual-Motor AWD		Quad-Motor AWD
